

The heatmap displays a 30x30 matrix of values. The x-axis is labeled 'floor number' and ranges from 0 to 30. The y-axis is labeled 'number' and ranges from 0 to 30. The color scale on the right indicates the magnitude of the values, ranging from 0 (dark purple) to 12 (yellow). The matrix shows a pattern of values, with some cells highlighted in white or light blue, indicating specific data points or connections. The values are generally low, with some higher values (up to 12) appearing in the upper right quadrant.
